

ZoiPer

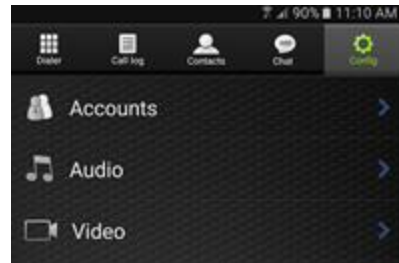

For  **android**

Configuration

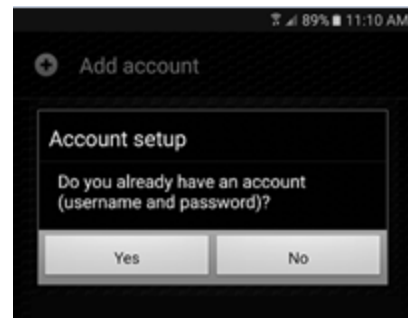

Launch your ZoiPer softphone client

From the top menu:
select **Config**
then select **Accounts**

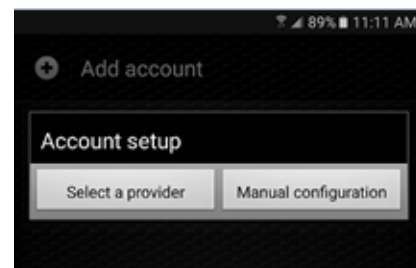

Select **Add account**,

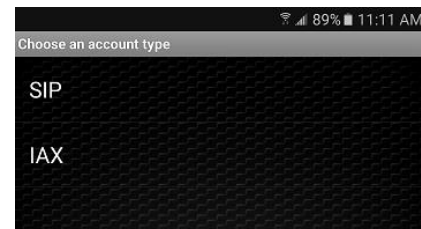

Then click **Yes**
(to the Do you already
have an account question):

Select **Manual Configuration**:

Select **SIP**:

In the **SIP Account** section, complete the following fields:

Click **Account Name** and enter any name
you wish to identify the connection
ie: Home

Click **Host** and enter:

sip-on.voipmuch.com
(use the SIP address / domain specified in your SETUP document)

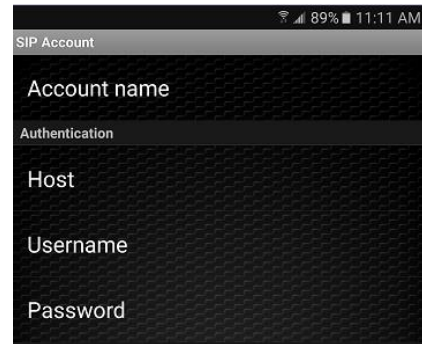

Click **Username**:

Enter your VoIP Much Account ID*

Click **Password**:

Enter your VoIP Much Account Password

*not your VoIP Much Username
(your username is used for accessing the VoIP Much User Portal).

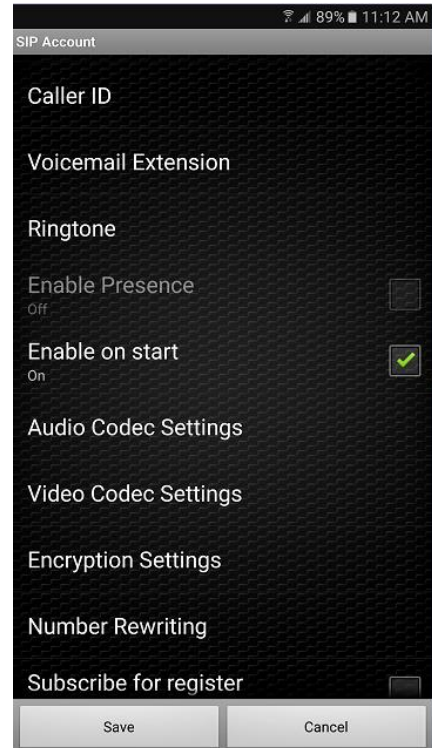

Scroll down and select **Voicemail Extension**:

Enter: *97

Ensure **Enable on Start** is checked (on).

Click **Save**.

You should now be connected and ready to place calls on the VoIP Much network.
