

ZoiPer

For  Windows

Configuration

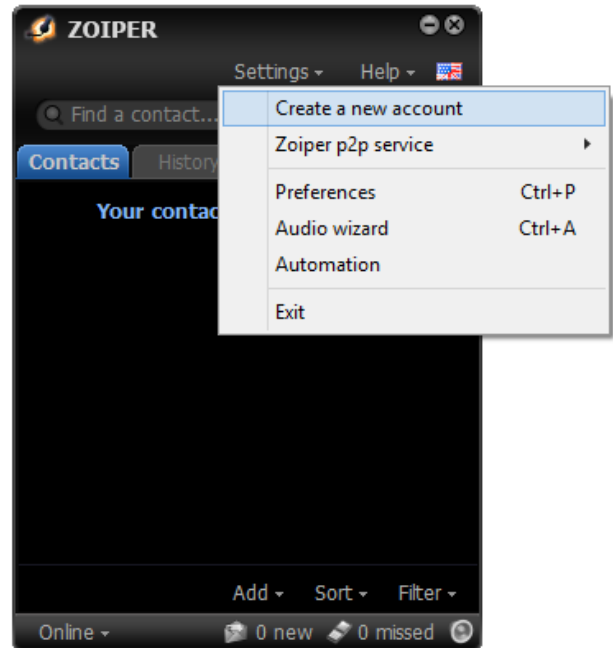

Launch your ZoiPer softphone client

From the top menu:

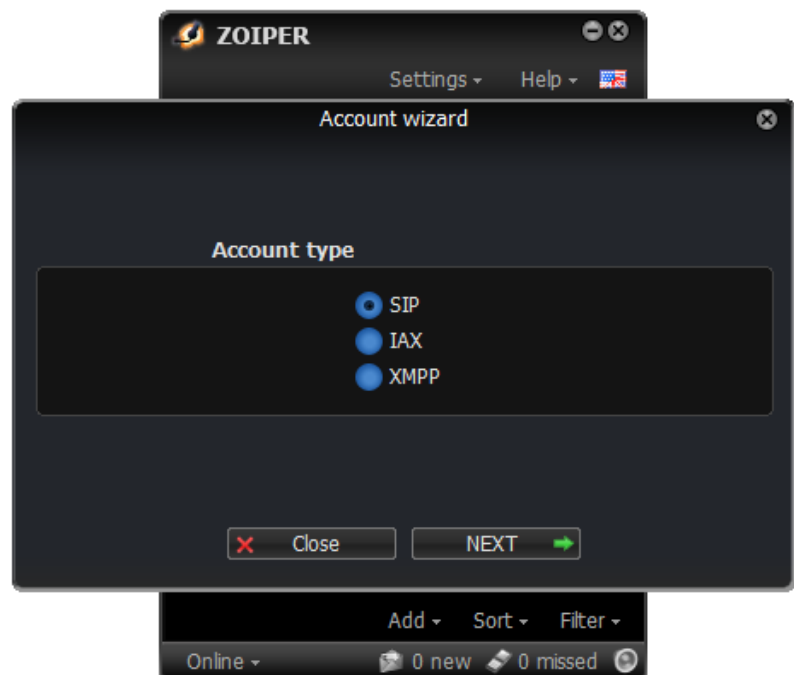

select **Settings**

then select **Create New Account**

In the **Account Type** section,

select **SIP** and click next:

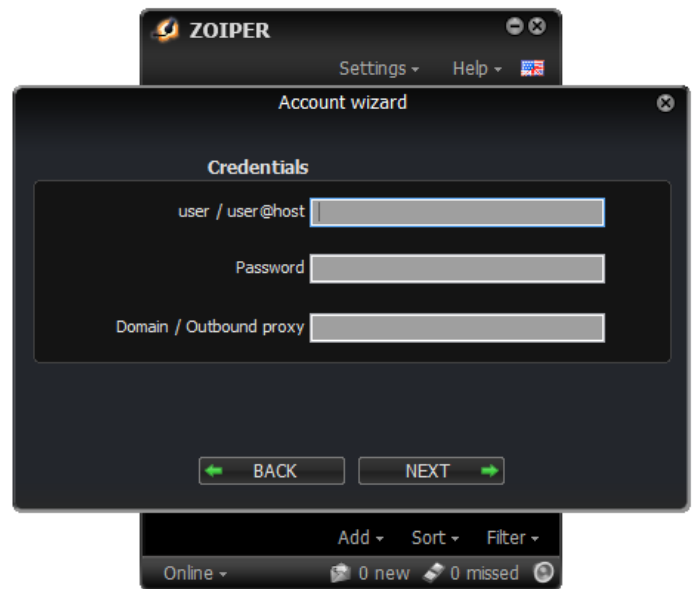

In The **Credential** section, complete the following fields, then click next:

User: Your VoIP Much Account ID*

Password: Your VoIP Much Account Password

Domain: sip-on.voipmuch.com
(use the SIP address / domain specified in your SETUP document)

*not your VoIP Much Username
(your username is used for accessing the VoIP Much User Portal).

In the **Account name** section, enter the name you wish to identify the account (ie: Home), then click next:

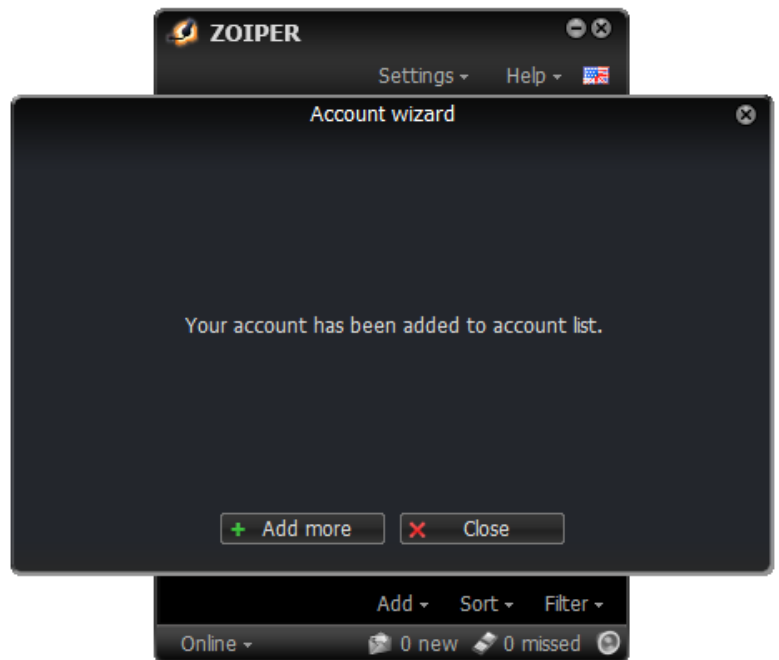

You are done!

Click **Close**

Your softphone device should now be registered to the VoIP MUch network.

You should now be connected and ready to place calls on the VoIP Much network.
